

Portrait Printing Services

Candid Prints - Great choice for photo albums or table top framing, candid prints are coated with a UV resistant lustre laquer coating. All 16x20 or 20x24 candid prints are mounted for easy handling. Available in Color, Sepia, or Black & White.

Custom Prints - A beautiful choice for display portraits! We'll start by selectively darkening or lightening backgrounds to enhance your setting. Then our digital artists will remove the worst of the skin shine, glasses glare, and fix up some facial blemishes (tell us what belongs and what doesn't). We'll deliver your print mounted on a canvas panel, or (at your request) a smooth art board, protected by a clear UV laquer and ready for framing in your choice of color, black & white, or sepia.

Gallery Wrap Prints - Who needs frames? These are our very best prints. We'll start from your loving family portrait and do all of the personal touch-ups from our Custom portraits with even greater attention to detail, and add a soft flattering glow to your skin tones. Next we'll work on cleaning up your background and further enhance the natural colors and tones. Your image is then printed on 100+ year archival media to preserve your memory for generations. Each canvas will be wrapped around a wooden frame so the photo is visible on the sides, top, and bottom for an outstanding three-dimensional presentation and delivered ready to hang with no framing needed. Gallery wraps look better, last longer, and cost less than our former top-of-the-line Prestige prints, and you don't need to spend hundreds of dollars on framing!

A Few Notes -

Special Cropping - For larger families under 8ft tall we offer longer crops such as 10x20, 16x32, even longer if needed to reduce excess sky and sand or emphasize the wide horizons of the beach.

Surfaces and Finishes - We can have your portraits printed in a variety of beautiful ways from vibrant metallic finishes to soft watercolor papers and much more.

Artistic Touches - For something more creative we can add brush stroke techniques to give your portraits a truly unique character.

Contact us for pricing on these enhancements, other options, or retouching for your portraits.
